The days are noticeably getting longer and it has been a sunny wetter-end, but we are looking forward to our break in a place which should be considerably warmer. It should be quite interesting too. Thailand is almost alone in this part of the world as a country that has never had to put up with colonial rule. It also has the distinction of having a public holiday on 12th August to mark an important birthday. (Queen Sirikit also has her birthday that day).

We took the Higgins out to dinner on Friday (to ~~the~~ Stephanie's). Remind me to take you there next time you are in Australia. It really is in a class of its own. They were in New York a week or two ago, then down to Dallas (on business). They seem to be keeping well.

We had a phone call from the bowleds (He was our best man). They both have retired and were down visiting Lance. We asked them over for dinner last night so that we could reminisce & check up on our respective families. They have drifted up to Lake Macquarie (North of Gosford NSW) and seem to spend their time sailing, fishing, & bowling.

The Department of Aviation seem to think that you owe them for Air Navigation charges on VH-M6P. They initially sent a bill for 1986/7 and 1987/88. It was pointed out that the aircraft had been sold and they have deducted the 87/88 charge. They are now demanding payment of the 86/87 year by 12/8/87 to prevent legal action. The amount is \$527.90 plus penalties \$40.80. As they cannot add up straight, they show the total as \$468.70. If this is owed I can pay it from here.

We advertised several positions at our office in the Financial Review last Tuesday. The plan is to virtually double the size of the office now that it's earning its keep. We really have been quite busy, which is another reason I can't

looking forward to the break for a couple of weeks.

Sam, Ronie, Skip, Michael did not come over today.

The kids have chicken-pox. One of the penalties of having a doctor father.

Beth brought her flute. Mum had been practicing the pieces on the piano and accompanied her.

Blair continues to progress and is taking interest in her surroundings.

After, I think that I mentioned having paid your signature to take out some shares in Australian Diversified Resources Ltd. They are due to be listed this Thursday.

Love
June Hey
